DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-23 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Yanagisawa et al., EP 1 035,527 A2.

Regarding claims 1-15, Yanagisawa teaches means for storing an application page, for sending the application page, for receiving and storing input information containing advertising placement information, for distributing specific data and for controlling printing the advertising; for calculating an advertising placement fee ... (see col. 3 lines 10-47, col. 5 lines 4-45, col. 14 line 1 to col. 15 line 8 and fig. 1-16).

Regarding claims 16-23, Yanagisawa teaches sending the application page containing an advertising placement page, receiving and storing input information containing advertising,

calculating an advertisement fee, sending a payment specification form containing the calculated fee, confirming fee payment, registering in the POS system advertising information and outputting advertisement etc. (see col. 3 lines 10-47, col. 5 lines 4-45, col. 14 line 1 to col. 15 line 8 and fig. 1-16).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Marshall et al. U.S. Patent No. 6,650,429 teaches broadcasting receiving and storing and selectively printing messages.
